

K-LOVE station offers news from a unique, alternate perspective and covers news items not covered by other local stations. It also covers local Christian concert information, not covered elsewhere. K-LOVE is a station that parents don't have to monitor when children listen. It is listener supported, we wouldn't pay if it were not valuable to us. While there may be other commercial free Christian programming, they don't play the same music, the same news or information. K-LOVE is a source of great hope and encouragement for me and many others. I urge you not to displace it with something different. A new LPFM station could not meet my needs. Thank you.
